PSC APPROVES ADDENDUM TO ELECTRIC TERRITORIAL AGREEMENT

JEFFERSON CITY—The Missouri Public Service Commission has approved an addendum to a territorial agreement between Union Electric Company d/b/a AmerenUE and Macon Electric Cooperative which will allow the cooperative to provide electric service to a farmstead currently located in AmerenUE's service territory.

The territorial agreement between AmerenUE and Macon Electric Cooperative designates the boundaries of each supplier in Linn County. On August 30, 2005, a joint application was filed seeking Commission approval of an addendum to the territorial agreement to address a customer request to be served by Macon Electric Cooperative.

According to the joint application, the farmstead could be most easily served by extending an existing Macon Electric Cooperative line by approximately one half mile. The nearest AmerenUE line would have to be extended 1.2 miles, and across a creek, to provide service to the farmstead.

The PSC Staff recommended the addendum be approved. Based upon information contained in the joint application as well as the PSC Staff recommendation, the Commission determined the proposed addendum is not detrimental to the public interest and should be approved.
